Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: It is absolutely necessary to my well being that I obtain
prescription drugs from a pharmacy that is not in the state where I
live. It should be any American's right to obtain necessary drugs from
the best available source regardless of where that source is located.
